EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Yuan Chao on March 2, 2005.

Claims 1-20 are pending. No drawings were filed with the application. Foreign priority was not claimed.

Applicant's election without traverse of Group I, claims 1-13 in the reply filed on July 26, 2004 is acknowledged.

The restriction has been modified to include the method of use (claim 14) with the elected compound.

Claim 15-20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected subject matter, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on July 26, 2004.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

The application has been amended as follows:

Art Unit: 1625

This application is in condition for allowance except for the presence of claims 15-20 to subject matter non-elected without traverse. *Accordingly, claims 15-20 have been cancelled.*

Claim 13 line 1 replace 'comprising' with --consisting of a therapeutically effective amount--

Claim 14 line 1 after 'motility' insert ---, wherein the disorder is gastroparesis or gastroesophageal reflux disease,-----

The changes were made for the following reasons: Claim 13 is self conflicting because the claims are drawn to pharmaceutical compositions without a dosage limitation. Please note that a pharmaceutical composition by definition cannot be either ineffective or toxic.

The transitional term 'comprising', which is synonymous with 'including', 'containing', or 'characterized by', is inclusive or open-ended and does not exclude additional unrecited elements or method steps. *Moleculon Research Corp. v. CBS, Inc.*, 793 F.2d 1261, 229 USPQ 805 (Fed. Cir. 1986); *In re Baxter*, 656 F.2d 679, 686, 210 USPQ 795, 803 (CCPA 1981); *Ex parte Davis*, 80 USPQ 448, 450 (Bd. App. 1948) ('comprising' leaves 'the claim open for the inclusion of unspecified ingredients even in major amounts'). See MPEP 211.03.

For claim 14, the instant method of treating a disorder of gastric motility is considered to be reach through claims. Please note that the scope of such claim encompassed any and all future development in the field of gastric motility which finds no descriptive nor enabling support from the specification.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or fairly suggest the claimed compounds or their use.

Art Unit: 1625

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
